## **PRESENTATION:**

The aim of the meeting is to enhance scientific communication in the field of radiation therapy physics and the use of latest technological advances. The scope is also to contribute to the advancement of medical physics in clinical practice and to present occasion for promoting and discussing the role of medical physicists in the four countries. This is a second meeting (the first one was in Udine two years ago). The common wish is to have such meetings in two – years cycle.

## **TOPICS:**

Clinical dosimetry and quality assurance  
External radiation therapy – advances and new techniques  
Brachytherapy  
Imaging for radiation therapy
